**Petroleum Operations Notice 6**  
Application to complete or workover a well

Revised May 2012

---

Any enquiries regarding this Notice should be addressed to :

Department of Mineral Resources  
Ross Road  
Stanley  
Falkland Islands

1. WELL COMPLETION

Application for consent to complete, where required, should be submitted where a well is for production purposes, or is being put on long term production test (longer than 4 days), and should contain a diagram of the well completion showing the downhole equipment to be installed, with approximate depths, together with the producing formation(s) and proposed perforated interval(s). The attached Proforma may be used.

2. WORKOVER

Application for consent to workover a well, where required, may be made on the attached Proforma, and should contain the following information :

- (i) Reason for the workover
- (ii) Present status of well and proposed recompleted status of well
- (iii) A revised completion diagram showing the downhole equipment to be installed, with approximate depths, together with the producing formation(s) and proposed perforated interval(s).
- (iv) Proposed reservoir monitoring logs (pressures, fluid flow, water saturation).
